The Orioles have a rough timeline for Manny Machado's return from a knee injury, and he's not in a rush to get back. "I can't even think about that right now," Machado said. "My focus is on getting back healthy and being back on the field, and I'm going to do everything I can to get back there as soon as possible." Machado's knee injury forced him to undergo surgery in October, and he had some setback problems in early spring training. He went 1 for 4 in his first game back in extended spring workouts on Thursday, and is scheduled to play in extended spring for the second time on Friday. Machado is still on schedule to play in April, but he isn't looking to rush it. Machado was not ready to play in the Orioles' spring training games and instead hit the field on flat ground in Arizona. "It's just a matter of my body feeling good and getting healthy and going," he said. "The game hasn't stopped, so I just have to get healthy and take my time and get ready to play." When asked if he'll be ready for Opening Day, Machado said, "I don't know. I'm not thinking about that right now." Q:

Trying to find the udp package that contains the default daemon socket I need to replace the code in the main function of udp\_daemon\_socket.c and, that's where I am so far. I have not found what package that I need to import, can you help me? int main (int argc, char \*\*argv) { int port; const char \*name; if (argc > 3) { fprintf(stderr, "Usage: %s [] ", argv[0]); exit(1); } if (!isdigit(argv[1][0])) { fprintf(stderr, "Bad port: %s ", argv[1]); 82157476af
