Time waster, destory everything on the screen. Not a bad game.. Creative, maze-like, full of traps, surprises & smart enemies game delivering 'Dark Souls' dungeon raiding vibes. The challenging platforming and smart enemies make the experience more interesting, because you never know if an enemy is going to parry your attacks and abilities, or chase you until it kills you. You can also use the environment to your advantage in battles against bosses or mobs, like using higher platforms or luring enemies into the castle traps.

Dismantling enemies can be also rewarding. From time to time any type of enemy could drop special items and potions coming in handy in many situations, like speed up, faster or instant HP regeneration and more.

It's a great game and the determination I felt to defeating the 1st boss says it all!. to hard im keep dieng AND I DONT LIKE IT. The puzzles are fun, but the jumping feel a little off.. I bought the game just to be able to get the soundtrack in FLAC after I was listening to it on Spotify.

My favorite is track four: "Is There Anybody Out There".

If you buy the game, get this aswell. Totally worth the 3\u20ac.

Kai Rosenkranz still got it.

10/10 love to play this again!. For a game that brags about being HTC Vive ready I was surprised to find that it doesn't support the vive motion controllers. Add to that the fact that the head tracking starting position changes with each mission launch, and the left and right buttons on the mouse are backwards from the tutorial controls and this game is a hot mess. Not worth the money.. 10/10 would load screen again. its one of the best games ive ever played so fun it was worth the money. not terrible, but only a few minutes of gameplay.... This is a creative game beacuse there are many ways you can do the mission
